19th GRADUATION

(Winter Graduation)

THEME: CELEBRATING HUMBLE BEGINNINGS,
ASSURING TOTAL COMMITMENT TO QUALITY.

DATE: 19 May 2023
TIME: 08H00
VENUE: IUM Main Campus, Dorado Park

IUM GRADUATES ARE OUR FLAGSHIP

“

Our philosophy is to focus on the development of quality human capital. The latter is a rare commodity in most, if not all, African countries. So, the continent is faced with this mammoth task of producing much needed productive skills required to transform the continent in order to achieve sustainable economic growth and development...as we embark on this thorny path, efforts should be directed towards instilling a sense of ethic and positive attitude in our graduates and equip them with skills of adaptation, taking into accounts that we are training for the global village.

VICE CHANCELLOR'S WELCOMING REMARKS: 2023 WINTER GRADUATION CEREMONY

Dr. Aquilinus T. Nashilundo

Acting Vice Chancellor and Registrar
PhD Bus. Admn.; B Ed. (Maths & Science).; MBA.

WELCOMING INTRODUCTION:

It is with immense pleasure and distinct honour that I formally welcome you all to this auspicious occasion marking the 19th graduation ceremony of our University. This colourful annual event is the climax of many years of hard work by our students and commitment by the academic staff of the University. This is my first address to the University graduation ceremony as an Acting Vice Chancellor and I am indeed very delighted to be part of this special ceremony of the University.

NOTABLE ACHIEVEMENTS IN THE 2023 ACADEMIC YEAR:

IUM continues to record phenomenal growth, in leaps and bounds. Our 2023 enrolment figure is more than 16200 students, an increase of about 23% from last year's enrolment figure. This remarkable enrolment undoubtedly shows the popularity of IUM programmes and the complete confidence that students and the general public have in the university education. We endeavour to continually improve ourselves as a university for total quality improvement.

To respond to market demands, new programmes were developed and rolled out in the 2023 Academic year. The new programmes include Certificate in Occupational Health and Safety; certificate, diploma, Honours degree, Master and PhD in Transport and Logistics Management; Diploma and Master degree in Maritime and Port/shipping Management; Postgraduate Diploma in Business Administration as well as a Master in Business Administration Majoring in Entrepreneurship, Postgraduate Diploma and Master degree in Knowledge Management Sciences. All the existing Tourism qualifications are revamped to meet the latest industry standards and trends. These are indeed exciting times for the University.

GRADUATION STATISTICS:

Ladies and gentlemen, I am particularly pleased to announce that a total 1972 qualifications will be awarded at this year's winter graduation ceremony. These are 541 (38%) more than the 1431 certificates that were awarded at last year's Winter Graduation ceremony. Amongst the qualifications being awarded today include 888 Honours degrees, 77 Postgraduate diplomas, 75 Masters Degrees and 1 PhD degree. Today's PhD in Business Administration candidate is a third graduate to receive this qualification since the inception and accreditation of the programme in 2017.

Furthermore, the university will, for the very first time, award Master degrees in Nursing Science to 8 graduands, and a Postgraduate Diplomas in Environmental Science to 6 graduands. This is another milestone for the university which we are proud of.

I wish to thank the Academic staff whose commendable efforts made it possible for these graduands to receive their awards today. The important role of our administrative and support staff cannot be overlooked either; so, I wish to thank them for their invaluable support.

TO OUR GRADUANDS:

I congratulate all of you for having successfully completed your programmes of studies. In doing so, I take this opportunity to welcome you into the fold of the IUM Alumni Association. I encourage you all to join the university Alumni Association which brings former students together to maintain a connection with the university and fellow graduates. It is our sincere hope that you will maintain strong links and relations with the University and be our good ambassadors.

APPRECIATION:

My sincere gratitude and appreciation goes to Prof. David Namwandi Trust, Prof David Richard Namwandi, the Founder and Chair of the IUM Governing Council whose wonderful vision led to the establishment and growth of this prestigious university. The University benefited immensely from his abundant wisdom and staunch leadership. I want to acknowledge members of the Governing Council for diligently performing their oversight function. My sincere thanks go to the IUM Chancellor, Bishop Dr. Shekutaamba Vänö-Väinö Nambala for always being available to perform his ceremonial duties with unquestionable commitment and for often taking out time to speak to both university students and staff.

A special tribute goes to my fellow colleagues: the executive management team, deans, Campus directors, heads of units and centres, HoDs, academic and administrative staff. Thank you for your heightened sense of responsibility, commitment, dedication and passion for excellence in the performance of their duties. I salute every member of the University's Graduation Preparation committee, AFFCOM, for a job well done in putting this ceremony together.

To our distinguished guests, parents, guardians, friends and representatives of the media who have joined us to celebrate this graduation Day, I thank you most sincerely for being part of today's ceremony.

I thank you!

DOCTOR OF PHILOSOPHY

IN BUSINESS ADMINISTRATION

CANDIDATE NAME: MARY ONJEFU

RESEARCH TITLE: DETERMINANTS OF SMALL AND MEDIUM ENTERPRISES GROWTH IN SELECTED TOWNS IN NAMIBIA: TOWARDS SUCCESSFUL ADOPTION AND IMPLEMENTATION OF AN AMENDED GROWTH MODEL

SUPERVISOR: Dr. SHIHALENI NDJABA

ABOUT THE CANDIDATE:

The candidate holds an MBA in Business Administration from the International University of Management, Namibia, in 2018, and a Postgraduate Diploma in Education from Benue State University, Nigeria in the year 2011. She also holds a BSc (Honours) in Business Management from Benue State University in Nigeria where she graduated in 2007. Mary Onjefu has done a series of research on Small and Medium Enterprises in Nigeria and in Namibia during her studies. She has publications with the international journal of Management. She is currently a part-time staff with the Faculty of Business Administration at the International University of Management, Namibia where she lectures Intermediate Entrepreneurship and Innovation, Applied Entrepreneurship, Operations Management, and Project Management.

SUMMARY OF THE STUDY:

The study investigated the determinants of growth of small and medium enterprises in selected towns in Namibia and recommends the adoption of an amended growth model that will help small and medium enterprises to grow. The research design applied in the study was a mixed method. In the quantitative method, the researcher used a close-ended questionnaire for data collection. 200 questionnaires were distributed in the five selected towns in Namibia while in the aspect of qualitative method, an interview guide was used to collect data from 15 respondents from the institutions that support SMEs in the five towns in Namibia. Quantitative data generated from the study were analysed using various techniques such as descriptive statistics, inferential statistics (specifically the chi-squared method), regression, correlations, and ANOVA. Furthermore, qualitative data were analysed using a thematic approach.

The findings from the study indicate that certain entrepreneurial characteristics exert a positive impact on the growth of SMEs. Specifically, among the demographic characteristics analysed, prior experience has a positive relationship with the growth of SMEs. Regarding entrepreneurial orientation, a certain aspect of innovativeness of the Owners/Managers has a positive effect on SME growth, risk-taking has a weak positive influence, and certain aspects of entrepreneurial readiness have a positive impact on SMEs' growth in the five towns in Namibia. The study also found that among the business characteristics of SMEs, the age of the firm and the location of the firm have a positive influence on the growth of SMEs. Finally, certain aspects of macro-external business environmental factors also have a positive relationship with the growth of SMEs based on the regression result, and the qualitative analysis indicate that all the macro-external business environmental factors used in the study influence SMEs growth in the five towns. The hypothesis tested shows that all the variables used for this study had a relationship with SME growth in the five towns in Namibia. The study recommends that SME owners should be given training on innovation and risk-taking and they should also be provided with aid to assist in their growth. The government should also review laws that are too hard on the SME sector.
